Wednesday 14th October

Dear Parents and Carers,

Following the recent announcement from the government that placed the area of Glossop into a higher risk category and the complete closure of our local secondary school, we are taking action to improve the safety of our school community at the start and end of the school day. I am therefore asking that all adults who enter our school site wear a face mask/ covering from tomorrow morning, Thursday 15th October. This is in line with other schools in our COGS cluster and I would like to thank you for your continued support, efforts and cooperation in helping us to work together to keep our school open for all our children and look after our vulnerable people at this worrying time.

Kind regards

Mrs Greaves
